SUMMARY

Final-year Computer Science undergraduate and MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in authentication, authorization, REST APIs, responsive dashboards, Docker, AWS EC2, and CI/CD workflows.

EXPERIENCE

Railbit Engineers Pvt. Ltd. Noida, India
Web Development Intern July 2026 – August 2026

- Developed and completed assigned web development tasks involving user authentication, registration, login, logout, and session handling.
- Implemented authorization mechanisms using protected routes and role-based access control to manage user permissions.
- Built a responsive dashboard with 10+ reusable UI components to support application functionality.

PROJECTS

NextStep AI – AI-Based Interview Preparation Web App GitHub
React.js, Node.js, Express.js, MongoDB, OpenAI API, JWT

- Developed a MERN-stack interview preparation platform with JWT authentication, email verification, and protected routes.
- Integrated resume-based question generation using OpenAI with difficulty-level customization and fallback logic.
- Built feedback and skill-tracking modules with MongoDB to store interview performance and progress history.

Complaint Tracker System Live | GitHub
React, Node.js, Express.js, MongoDB, JWT, Multer

- Built a full-stack application for users to submit and track complaints with status updates.
- Implemented secure JWT authentication and role-based access control.
- Containerized and deployed the application using Docker on AWS EC2, gaining hands-on experience in cloud deployment and application hosting.

TripKey - Hotel / Listing Web App Live | GitHub
Node.js, Express.js, MongoDB, EJS, Bootstrap

- Implemented user authentication, authorization, and CRUD operations for hotel listings.
- Added map integration to display hotel locations and improve user interaction.

TECHNICAL SKILLS

Frontend: HTML, CSS, Tailwind CSS, Bootstrap, React.js
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Authentication: JWT
Languages: Java, JavaScript, Python
DevOps & Deployment: Docker, AWS EC2, CI/CD, GitHub Actions
Tools: Git, GitHub, VS Code, Postman, Nodemailer, Multer, Render, Netlify

EDUCATION

The Technological Institute of Textile and Sciences Bhiwani, Haryana
Bachelor of Technology in Computer Science 2023 – 2027
CGPA: 7.35/10.0 (through 6th semester)

K.C.M. Army Sr. Sec. School Bhiwani, Haryana
Senior Secondary (12th), Non-Medical 2022 – 2023

ACHIEVEMENTS & CERTIFICATIONS

- Secured 1st place among 13 teams in the internal Smart India Hackathon (SIH) with the TrustID project.
- Successfully completed Full Stack Web Development certification from GeeksforGeeks Skill Up.
- Attended the National Workshop on DSA and Front-End Development (ALGOUI), TIT&S, Bhiwani.
